100+ YEARS AND GROWING

Tree Life™ Family of Products

1918

G.R. Kirk starts the Kirk Company with a truckload of Douglas Fir sent to Texas.

& BEYOND

The next generation is eager to continue the Kirk legacy and bring Christmas home to families around the world.

TERMS & CONDITIONS

All prices are FOB Kirk (Wisconsin, Oregon, Pennsylvania, California, or Georgia) based on product location for orders placed after 8/15.

Shipping and handling charges will be additional and charged separately.

All returns must have prior authorization. Unused merchandise may be considered for return within 10 days of receipt. No credit will be given for product returned without prior authorization. Non-defective returns will be made at the buyers expense.

***Price: Subject to change without notice.**

***Any increases in tariffs or taxes imposed by the government after the order has been accepted, will be added as a surcharge at time of invoicing**

***Increases in transportation over 10% are subject to a surcharge at time of invoicing.**

Terms: Net 30 upon approved credit.

Account totals under \$500 require payment prior to shipping.

VISA • MasterCard • Discover Card • AMEX

3% fee will apply for credit card charges

Balers

800-426-8482

- Proven to endure years of use through extreme climates and conditions
- 89% of customers expect their purchased Christmas tree to be baled
- Simplifies customer handling
- Makes for quick & easy loading
- Secures branches during transport reducing possible damage
- Measure the back side of the baler at the widest point where the trunk of the tree exits the baler for correct netting size

All Kirk Balers Feature:

- A heavy gauge all steel frame
- Polyethylene funnel that is durable and light weight
- Slick finish that minimizes friction allowing trees to slide through quickly and easily
- A hinged flap to ease loading of netting
- Visit www.kirkcompany.com/how-to-videos

18" Baler - Purple
Up to 6' trees
BLR18
\$360.00

23" Baler - Red
8' - 10' trees
BLR23
\$360.00

20" Baler - Blue
Up to 8' trees
BLR20
\$360.00

26" Baler - Green
Up to 12' trees
BLR26
\$435.00

What size baler do I have?

- Look on the post for the color
- Select the baler parts and netting based off that **OR** measure the funnel as described on the next page

Baler Stand
BLRSTD1
\$178.00

- An easy alternative support for your Baler during the baling process
- Made from 1½ inch angle iron
- Stand features scissor folding legs for easy storage
- Pre-drilled to easily attach the baler
- Fits all baler sizes
- *26" Baler needs extension plates to use the baler stand

Extension Plates
for use with
26" Baler

Colorants

www.kirkcompany.com

- Keep your trees looking green, healthy, and fresh throughout the Christmas selling season
- Years of research and development have resulted in true believable, natural colors that won't wash off or fade from weather or sunlight
- Non-toxic, environmentally safe, containing no heavy metals or mercury
- The following dilution rates are suggested, though the amount of water may be altered to obtain the desired shade of green
- Dilution rate per gallon: 1:30 Application Aug/Sept, prior to first frost will treat approximately 65 6'-7' trees
- Dilution rate per gallon 1:20 Application if later than Sept, will treat approximately 42 6'-7' trees

Non-Treated → Treated

Cinco Tree Stands

www.kirkcompany.com

Cinco introduces the Push-Pull Express Bolt System that allows for quick set-up and release. The patent-pending button release system saves low branches from needing to be cut off. The improved reservoir makes filling easier. Made of heavy duty, no-break plastic, rust proof spike secures tree trunk. Quick-turn plastic bolts and threaded posts. Use with fresh or artificial trees. Made in the USA

Pro Tree Stands

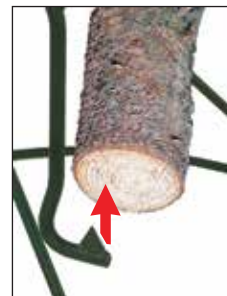

800-426-8482

What a time saver! Display Christmas Trees with the high quality, uniquely designed Pro Tree Stand. In just seconds your tree can be easily straightened for a perfect presentation. And in minutes you can give your trees additional weeks of beauty and longevity because of the large water capacity.

- All steel, forest green powder coated construction
- No sharp edges on the base to gouge floors or snag carpets
- Equal 360° weight distribution for maximum stability
- Made in the USA

Pro Tree Stand

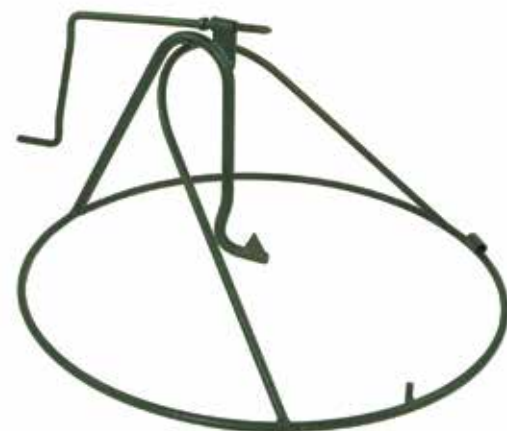

Place stand on tree with the small vertical wedge near center of tree trunk. Hammer in to secure.

Start the side screw by tapping/hammering it in and turn the hand crank till flush with tree

To straighten the tree: stand on "low" side, step on the base ring and push the tree away from you

2'-3' Tree

How to get your tree ready for the Quick Fit Stand

- Saw approximately 1/4" off the trunk of the tree.
- A fresh cut helps provide a level end to place in the stand.
- (The saw shown is an example of a custom fabricated machine designed for high production growers)

Wreath Clamp Machine

www.kirkcompany.com

*Stand not included
(see item listed below)

"No Hammer"™ Clamp Machine
Eliminate any need for hammering clamps closed.. This machine flattens and closes ring wires in one easy step. Designed with heavy-duty components for high-volume wreath production, it features adjustable jaws of hardened steel.
Foot pedal activation, periodic cleaning and lubrication of the jaws required to keep the machine in good working order.*

Creating a Successful Christmas Tree Lot

Look for the colored dots to learn more!

1. Pick the right location-high traffic, easy entry/exit and parking.
2. Check with local authorities about retail permits and zoning laws.
3. Buy your trees from a reputable Grower, such as Kirk Company. (page 51)
4. Source quality equipment. ●
5. Staffing: depending on your lot size, a good rule of thumb is 1 person for every 200 trees sold. Minimum of 2 people.
6. Tree accessories provide an exceptional experience for your customer. ●
7. Pricing strategy-2x the cost of the tree for retail pricing.
8. Set up your timeline:
 - Mid June-reserve your trees
 - October-secure permits
 - Early November-confirm tree shipments
 - Mid-November open lot 1-2 weeks before Thanksgiving
 - Peak sales-first 2 weeks of December
9. Daily operations
 - Fill display arms/corrals
 - Water trees to keep them fresh
 - Keep the lot clean-sweep needles under standing trees for better moisture retention
10. Bring the hot chocolate and have fun!

TL

Lot Equipment:

- Tree corral or A-Frame to hold trees
- Display arms to hold trees so customer can see the quality (page 31)
- Saws, gloves and protective wear for safety (pages 44)
- Tree Baler and Netting for easy loading (pages 3-4)
- Lighting for after dark sales
- Water supply to keep trees fresh
- Burlap to protect trees from the sun (page 14)
- Chainsaw for cutting the stump off the tree-remember safety gear!
- Signs and banners to bring attention to your lot (page 15)
- Coloring books and crayons for the kids! (page 35)

Sustainability

www.kirkcompany.com

Environment:

- 1 acre of trees consumes 1 ton of CO2 per year
- 1 acre of trees produces enough oxygen for 18 people daily
- More trees are planted than harvested each year
- Trees are recyclable - as mulch, wild life habitat, or for wild land fire training
- Integrated Pest Management - protecting people and the environment

Economic Vitality:

- All the real trees used in North America are grown in North America
- 85% of fake trees are manufactured in China
- 100,000+ people are employed on tree farms

Community:

- We work with Adult & Teen Challenge. They are a faith-based organization for people in addiction recovery. They work on our farms and in our retail partner's tree lots to merchandise. We supply trees and support Adult & Teen Challenge with their tree lots, which is their best fundraiser activity all year.

Real Christmas Trees are Sustainable: 100% Recyclable and Biodegradable

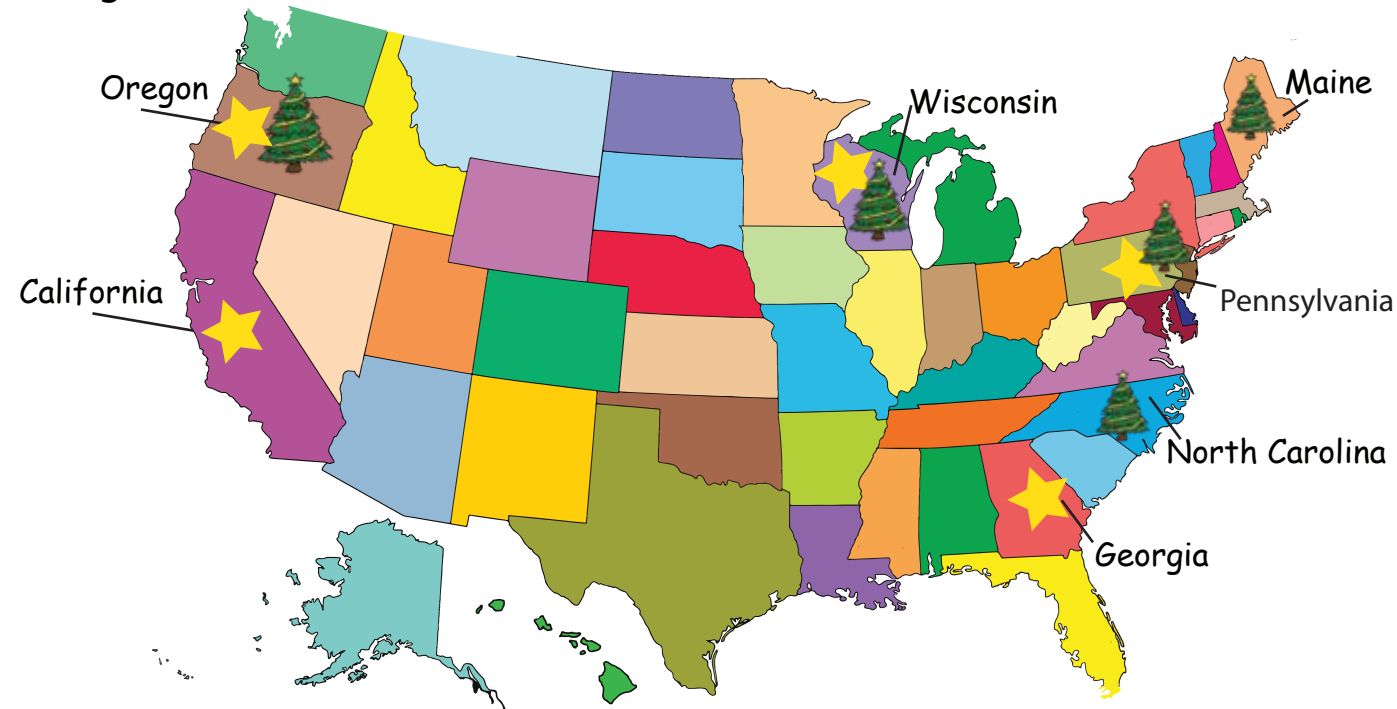

One acre of trees provides enough oxygen for 18 people annually
Real trees are grown on farms, for each tree harvested,
2 more trees are planted
Real Christmas trees convert CO2 into oxygen
and help mitigate erosion

Bamboo

- Scientific name: Pseudosaa Amabilis, 'Tonkin cane'
- Grown in small region of Southern China
- Synonymous for durability and resistance to bending
- True straight thick walled canes
- Long lifespan: smooth cane surface resists penetration from rain, disease and fungi
